Government Statist, &c.

By Authority: K. M. STEVENSON, Government Printer, Adelaide.

1954.

Statistical Register of South Australia, 1951-52

PREFACE.

The Statistical Register is divided into five parts as follows:—

Part I.—Social—Administration, Justice, Education, Hospitals, Charities, Land Transport Communication, etc.

II.—Population and Vital

III.—Finance—State, Local Government, Banking, etc.

IV.—Trade and Shipping.

V.—Production

A Statistical Summary of South Australia for the years 1836 to date inclusive is attached at the end of the volume.

Since in most cases considerations of space do not permit of a verbal analysis of the figures, it has been necessary in certain tables to append explanatory notes at the bottom of the page. Careful attention is drawn to these notes since they will generally be of considerable assistance in interpreting the published figures.

Certain more detailed information is shown in other departmental reports, such as Budget Papers and Reports of the Education, Police, Hospitals, etc., Departments.

My thanks are tendered to the various heads of State and Commonwealth Departments for their co-operation in furnishing statistical data, often at considerable inconvenience.

I desire also to express my appreciation of the services of Mr. H. L. Semmens, Assistant Government Statist, and of the staff of compilers and other officers for their careful attention to intricate details in the compilation of the various sections of this volume.

5th November, 1954. A. W. BOWDEN, Government Statist, etc.

a Excludes interest, dividends, rents, etc., 1952—£18,203, 1951—£19,390. *b* Management expenses. *c* Taxation. *d* Fire Brigade contribution.

The statistics above conform substantially to the definitions stated below and should be interpreted in accordance therewith :—

(i.) Premiums represent the full amount receivable in respect of policies issued and renewed in the year, less returns, rebates and bonuses paid or credited to policy holders in the year. They are not adjusted to provide for premiums unearned at the end of the year, consequently the amounts shown differ from " earned premium income " appropriate to the year. When figures are increasing as in recent years, " premiums receivable " (as defined in this paragraph) are greater than " earned premium income " appropriate to the year. The converse applies when figures are declining.

(ii.) Claims include provision for outstanding claims.

(iii.) Contributions to the fire brigades, commission and agents' charges and expenses of management mainly represent charges paid in the year.

(iv.) Taxation mainly represents payments made in the year, hence amounts included for income tax are based on income of earlier years.

The tables contain selected items of statistics and should not be read as a " profit and loss " statement or " revenue account."

CURRENCY VALUES.

Oversea Imports are recorded in Australian currency, following the 1947 Amendment to the Commonwealth Customs Act, 1901-1936. The full definition is printed at head of table 11. For years prior to 1947-48 they were recorded in British Currency, though strictly speaking they were British currency plus 10 per cent.

Exports are shown in Australian currency, the full definition being printed at head of table 12. (Ships' Stores are shown in table 10 but are excluded from all other returns.)

IV.—TRADE AND SHIPPING.

DIRECT OVERSEAS IMPORTS, 1951-52.

(For Alphabetical Index to Items, see page 17.)

No. 11—Direct Overseas Imports into the State of South Australia for Year 1951-52.

NOTE.—With the exception of Great Britain, New Zealand, and Australia, and in cases where a single country is concerned, only those countries are shown under each article where the value of imports exceeds £100 during any year.

In all cases where an item was not imported during the period, classification number of the item has been omitted from following table.

Value of Imports.—The value of goods imported from countries beyond Australia is recorded in Australian currency and represents the amount on which duty is payable or would be payable if duty were **ad valorem.** Section 154 (1) of the Customs Act, 1901-1948, provides that " when any duty is imposed according to value, the value for duty shall be the sum of the following :—

(*a*) (I.) The actual money price paid or to be paid for the goods by the Australian importer plus any special deduction ; or
(II.) The current domestic value of the goods, whichever is the higher ;
(*b*) All charges payable or ordinarily payable for placing the goods free on board at the port of export.

" Current domestic value " is defined as " the amount for which the seller of the goods to the purchaser in Australia is selling or would be prepared to sell for cash, at the date of exportation of these goods, the same quantity of identically similar goods to any and every purchaser in the country of export for consumption in that country."

Quantities.—Generally, but not invariably, quantities have been shown in the ordinary trade unit ; where the cental is used, the unit equals 100 pounds avoirdupois. Where imports have been declared in packages without an indication being given of the number, capacity or weight, of the articles imported, the values only have been inserted.

N.E.I. means " Not elsewhere included." **N.E.S.** means " Not elsewhere specified."

Import Duties.—Duties charged on imports into South Australia are collected by the Commonwealth of Australia under various Acts.

IV.—TRADE AND SHIPPING.

DIRECT OVERSEA EXPORTS, 1951-52.

No. 12.—RETURN showing Direct Oversea Exports from the State of South Australia for Year 1951-52.

(For Alphabetical Index to Items, see page 17.)

NOTE.—In all cases where an item was not exported during the year, the classification number of the item has been omitted from the following table.

Value of Exports.—The value of goods exported (including cost of containers) is recorded in Australian currency and the f.o.b. values have been determined as from 1st July, 1937, as follows :—

(1) Goods sold to overseas buyers before export—the f.o.b. equivalent of the price at which the goods were sold (e.g., as regards wool, the actual price paid by the overseas buyer plus the cost of all services incurred by him in placing the wool on board ship).

(2) Goods shipped on consignment.—The Australian f.o.b. equivalent of the current price offering for similar goods of Australian origin in the principal markets of the country to which the goods were dispatched for sale (as regards wool, the f.o.b. equivalent of current price ruling in Australia will normally provide a sufficient approximation to the f.o.b. equivalent of the price ultimately received).

N.E.I. means " not elsewhere included." **N.E.S.** means " not elsewhere specified."

Exports to other States.—Goods transferred from South Australia to the other States of the Commonwealth for shipment to oversea countries are shown as exports from the State from which the goods were finally dispatched and are not included in the South Australian details.

Ship's Stores.—Goods shipped as " ship's stores " on board oversea ships are not included in exports. See Return No. 13.

NOTE.—In compiling the above tables, the mean rainfall in each agricultural county has been first obtained from all available records within or on the borders of the county, and then weighted by the areas of the county to obtain the mean rainfall for each Division and the State. Counties Hamley and Young (Murray Mallee), Derby, Lytton and Taunton (Upper North), and Manchester, Hore-Ruthven, and York (Western) being non-agricultural counties, are excluded in compiling the average rainfall for this return.

(*a*) Gross value is defined as the value placed on recorded production at the wholesale price realized in the principal markets. Where primary products are absorbed at a local point or become raw material for a secondary industry, the value in each case is presumed to be the value at the principal market. Values include Bounties. (*b*) Marketing Costs—Freight, commission, containers, insurance, etc. (*c*) Local value is gross value less marketing costs, being value at place of production. (*d*) Production costs such as stock feed, petrol, oil, seed costs, seed pickling, manures, spraying, dips, and power and water used in irrigation. (*e*) Production Costs—Depreciation of machinery and implements (Agricultural, 10 per cent, pastoral and dairying, 5 per cent), and maintenance of buildings and fences (4 per cent on estimated present value of buildings, etc., used for farm or station purposes, excluding residences). (*f*) Net value is local value less production costs. (*g*) Local value is also accepted as net. (*h*) Power, fuel, explosives, timber, etc.

* Particulars from 1939-40 to 1945-46 exclude profits realized under the Wartime Wool Disposals Plan. The amount of £2,217,290 is excluded also from 1949-50, £2,217,642 from 1950-51, and £1,419,291 from 1951-52, the years in which payments were made.

V.—PRODUCTION.

FACTORIES.

NOTE.—The average number of persons employed means the average number over the whole year, except where otherwise specifically stated. Consequently in returns relating to employment and in the computation of average salaries and wages paid, production per employee, etc., the average number for the whole year is used.

From 1940-41, particulars for Electricity and Gas undertakings refer only to generation and exclude, for example, approximately 1,500 hands, £400,000 salaries and wages, and £700,000 value of production for distribution and transmission which were previously included.

† Particulars for earlier years—except for mileage—include figures for horse-trams, gradually being superseded:—1909 31 miles, 1910 21 miles, and 1911 10 miles.

‡ Details of registrations for early years were destroyed in 1924 fire. Particulars for 1919 to 1923 were available from other sources. Receipts from 1909 to 1918 are Treasury receipts for years ended 30th June.

a Owing to destruction of records by fire particulars for 1924 are not available.

b From 1st July, 1927, to 30th June, 1930, motor revenue has been credited direct to Main Roads Fund instead of General Revenue.

c Previously all motor vehicles had to be registered; from 1930 only those in actual use on roads.

d Includes tramway omnibus operations, this and future years. *e* Tramways year ends 31st January. *f* Less amounts written off.
